ABOUT ME

In constant training to keep myself updated and learn new technologies and methodologies, trying to maintain a pragmatic and solutions-focused approach that allows me to quickly adapt to new challenges.

I have a professional level of English, prepared to collaborate and communicate effectively in a global and multicultural contexts.

WORK EXPERIENCE

Junior Software Developer   Mar 2023 - Aug 2023
AOInk Software
Together with a team of experienced developers, my job is to develop functionality for the company's website using JS + HTML + CSS and perform frontend tasks on the mobile application using C#.

EDUCATION

Universitat Oberta de Catalunya   2023-Today
COMPUTER SCIENCE AND ENGINEERING DEGREE
4-year university degree focusing on Computer Science / Computer Engineering / Information Technology / Information Systems.

IES Pere Maria   2021-2023
Associate Degree in Multi-platform Application Development
During my studies, experienced teachers taught me different programming languages and methodologies to perform frontend and backend tasks.
